NAPIER OUTDOORS AND THE ENVIRONMENT

At Napier Outdoors our respect for the environment stems from a passion for the wilderness and everything nature. We are a company committed to sustainability, both in the design of our products and in the practices at our corporate office. In 2012, we removed PVC from all of our packaging and opted for recycled cardboard, while practicing good stewardship in our office. Recycling programs, reduced lighting and ENERGY STAR® equipment are all standard in our working environment.

In addition to our environmentally friendly practices, we also contribute to non-profit organizations and local communities across North America that share the same passion for the great outdoors.

A tree will be planted with every Backroadz Tent purchased

An agroforestry resource center that works with local farmers to restore degraded lands to sustainable productivity by planting trees that not only thrive in poor soil conditions, but that also benefit the local area in a multitude of ways. They have a worldwide network of technicians, volunteers, and community leaders, which help rehabilitate environments across the globe. Napier Outdoors selects different locations to plant trees on a quarterly basis.

CENTER FOR OUTDOOR ETHICS

A not-for-profit organization educates others on the importance of preserving the environment by reducing our impact on nature. Through newsletters and social media, we help educate our consumers on how they can protect the environment and do their best to 'Leave No Trace' after they conclude each trek outside.

“We like to drive until we find just the right spot. Sometimes high on a mountain along some forestry road, sometimes alongside a river or stream out in the middle of nowhere. Setting up this tent is the perfect solution to ‘camp where you wind up’. Sets up in 20 minutes easily. Lots of headroom, my 5.2’ wife can stand up inside! So many zipper options for the windows/vents.”

“I bought this tent for my Xterra and it functions beautifully! Conducted a set/parts check in my yard prior to my first camping trip to Ginnie Springs. Tent went up easily with one person - 100% success! Impressed the neighbors as well. Roomy, comfy, and sharp looking. I highly endorse this product.”
